Special H.E.L.I. Demo available
H.E.L.I. is a new game that will be released in 2020.
The game will incorporate "Christmas mode" which can be unlocked by entering a special code. Doing so will replace graphics and music to match what you see in this demo. However, instead of waiting until the game is ready, Christmas Mode is being released ahead of time as this standalone demo. Three levels are available... the final game will have 20+.
